The anti-austerity forces of Europe
are inviting you

Saturday the 30th and 31st of May, 2015

Republic Square, at the first

European Forum for Alternatives

The neo-liberal Europe never stops to deny democracy with austerity policies, undermining social needs, ecological development and rightly causing a strong popular rejection. If we refuse this Europe, we see no solution in the nationalist withdrawal of the FN. The future of Europe depends on our ability to unite around common solutions. As demonstrated the victory of Syriza, **the people have dignity, and capable citizens can prepare the change by building a positive solution, a new hope for social progress in France and in Europe!**

THE FORUM:

3 Plenary sessions, 30 workshops around six themes in various places of Paris: say goodbye to austerity policies, for solidarity in Europe. Regain power over money. What ecological and emancipatory productive model? For a real democracy, a Europe of freedoms. Another globalization. Make the peoples of Europe win: go on the offensive! **A great concert will take place on Saturday night. Hundreds of Europeans will be there to discuss with you:** activists of the European left, communists, environmentalists, socialists, Greek ministers and MPs of all countries, trade unionists, social movements, intellectuals and researchers...
